- **Summary:** Tourist App exploring API usage in giving dynamic data based on city input.
- **Role:** Team Lead, Scrum Leader, Primary
- **Technologies used:** HTML, CSS, JavaScript, jQuery, API, Bootstrap

EXPERIENCE

Product Image Specialist   **2019-2020**
REI   **Kent, WA**
Multifaceted employee with roles ranging from on-set Digitech, product and model photography editor, to bulk processing, ordering stock for shoots, site management, and contact point for vendors.
    Achievements:
- Generated a system for reshoots to increase online web accuracy for products company wide.
- Managed day to day high volume client facing email for constant communication with vendors.
- Exceeded job title by being willing and able to dive into any task thrown my way, from digital technician work, to onModel and product image colorist and editor.

Corporate Photographer   **2016-2020**
PNWER   **Seattle, WA**
High paced photographer for an annual, bi-national conference with an attendance of over 500 people including CEOs, government officials, legislators, academics, and policy leaders.
    Achievements:

- Coordinated with event staff for multiple event coverage, usually spanning 12 hour work days.
- Maximized efficiency with quick turnaround for day-of imagery for the client, in between sessions.
- Cultivated appropriate images of important attendee interactions while scrutinizing where I was needed next.

EDUCATION

Certificate, Full Stack Web Development – University of Washington   **Seattle, WA**
   A 24-week intensive program, gaining knowledge and technical programming skills in HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node.Js, MySQL, MongoDB, Express, Handlebars, React, Material-UI and others.

Bachelor of Arts, Communications: Digital Media - Film Production – Dordt University   **Sioux Center, IA**
